04/02/2026		FCA US LLC		Manufacturer Safety recall issued - NHTSA #26V-189 - Recall #06D 2022-2026 MY CHRYSLER PACIFICA AND VOYAGER (RU) - - Status: Remedy Available Click here for a copy of the owner letter for this Recall or call 1- 800-853-1403 if you have any questions or need additional information on this recall. Learn more about this recall Description: Federal Motor Vehicle Safety Standard (FMVSS) 571.226 S4.2.1 requires that "When propel[lid] ... into the impact target locations ... the most outboard surface of the ... headform must not displace more than 100 millimeters beyond the zero displacement plane." Suspect CABs may not retain sufficient pressure to prevent headform displacement of more than 100 mm. Curtain airbags which do not have proper pressure retention may reduce occupant protection and increase the risk of partial and complete ejection and injury of an occupant through a side window during certain types of crashes. Remedy: FCA US will conduct a voluntary safety recall on all affected vehicles to replace one or both CABs as needed. For vehicles in FCA US Recall ID 06D, FCA US will replace both CABs. For vehicles in FCA US Recall ID 10D, FCA US will replace the driver's side CAB. For vehicles in FCA US Recall ID 11D, FCA US will replace the passenger's side CAB.

CARFAX Glossary

Accident Indicator

CARFAX receives information about accidents in all 50 states, the District of Columbia and Canada.

Not every accident is reported to CARFAX. As details about the accident become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- According to the National Safety Council, Injury Facts, 2021 edition, 5% of the 276 million registered vehicles in the U.S. were involved in an accident in 2019. Over 77% of these were considered minor or moderate.
- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 5/4/26 at 12:24:53 PM (CDT). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

Airbag Deployment

Occurs when the driver, passenger or side airbag has been used or deployed during a crash or other incident. If an airbag has been deployed, it must be replaced by a qualified technician. Have this car inspected by a mechanic prior to purchase.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Rental

Vehicle was registered by a rental agency.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
